

# CALCIUM INCREASER

Increases  
Calcium Hardness  
and Prevents Corrosion

ITEM NO. 1-2801SPA

**CAUTION**  
MAY BE IRRITATING TO EYES AND SKIN  
**KEEP OUT OF REACH OF CHILDREN**  
See first aid statement and other  
precautions on back panel.

Net Contents 1 Quart (32 fl. oz.)

This product is used to increase calcium hardness in spas and hot tubs in areas with low levels of hardness. Low hardness levels will etch plaster and corrode equipment. Before adding this product, test the water with a calcium hardness test kit or ask your local spa dealer. The ideal hardness level is 200-400 ppm (parts per million).

### DIRECTIONS FOR USE

1 ounce of product per 500 gallons increases hardness by 7 ppm.

1. Determine amount of product to be added using a calcium hardness test kit.
2. Pour proper amount into spa or hot tub with equipment turned ON.
3. Run filter for 1-2 hours.
4. Water may be retested in 20 minutes.

### CAUTION: IRRITANT

Avoid contact with eyes or prolonged contact with skin.

### FIRST AID

**If on skin:** Flush with water for 15 minutes.

**If swallowed:** Drink large quantities of water. Call physician immediately.

**If in eyes:** Wash with water for 15 minutes. Get medical attention promptly.

### KEEP OUT OF REACH OF CHILDREN
